Know Your County Councillors

Division 8

JAMES M. McKAY

Re-elected by acclamation this year, Mr. McKay is chairman of the county school committee. Born and raised in the Brant district, he was principal of the Brant school before taking up farming. He represents Division 8.

SHOULD RECOGNIZE CANCER SYMPTOMS

About 16 thousand Canadians died of cancer last year, and more than 5 thousand of these deaths were needless.

The lives were forfeited to ignorance or delay, according to the Canadian Cancer Society. Successful management of cancer begins with the patient, the Society says, since the disease must be found in an early stage for treatment to be effective.

An important part of the Cancer Society programme consists of teaching the public cancer's seven danger signals. They are:

1. Any sore that does not heal.
2. A lump or thickening in the breast or elsewhere.
3. Unusual bleeding or discharge.
4. Any change in a wart or mole.
5. Persistent indigestion or difficulty in swallowing.
6. Persistent hoarseness or cough.
7. Any change in normal bowel habits.

The appearance of any of these symptoms does not mean, of course, that cancer is invariably present, but a doctor should be consulted immediately. Since untreated cancer always spreads, delay is serious.

With The District Agriculturist

Hugh Michael

What Will Your Garden Grow

Those who rely entirely on outdoor seeding are depriving themselves of many tasty vegetables and attractive flowers, says P. D. McCalla, Supervisor of Horticulture, Alberta Department of Agriculture. Many long season plants can be started indoors to provide healthy well-grown specimens for outdoor planting as soon as the season permits. Among the more common vegetables that can be started this way are cabbage, cauliflower, tomatoes, cucumber, squash and melons.

No special equipment and only a small amount of care is required. Shallow boxes or plant pots may be used, and with good soil, regular watering and adequate light, much useful material can be grown. A sunny room or a basement window provides a suitable location. The soil mixture can be made up of two parts of good garden soil and one part sand. Sow the seeds in moist soil and cover with newspaper to encourage rapid germination. Further water is usually not needed until the seeds have germinated, following which the newspaper should be removed and the soil kept moist as required. On the appearance of the first true leaves, usually in about two weeks time, transplanting and spacing in flats will result in well developed plants by the time the outdoor planting season arrives.

A useful bulletin "Home Vegetable Growing", is available from district agriculturists or from the Extension Service, Alberta Department of Agriculture, Edmonton. Starting plants, transplanting, location fertilizer, cultural practices and how and what to plant are all mentioned therein. A section dealing with diseases and insects provides a useful reference to the more common garden pests.

Hans O. Lundgren, District Pioneer, Dies Suddenly

Funeral services for Hans Olaf Lundgren, pioneer resident of the Vulcan district, were conducted from the Vulcan Church of Christ by Rev. J. S. Clarke of the United Church on Tuesday afternoon, April 8.

Mr. Lundgren was found dead at his farm home south-east of Vulcan on Thursday, April 3, by neighbors who had noted his absence for several days. Death had occurred as the result of a heart attack.

News of Mr. Lundgren's death came as a sudden shock to his many friends of the town and district as he had appeared to be in very good health recently. He was alone at the time, Mrs. Lundgren being away on a visit to relatives.

Born at Bolan, Sweden, in 1884, Mr. Lundgren came to Canada in 1902 and in 1905 homesteaded in the Vulcan district, south-east of the present site of the town. He had resided on the farm since that time and in 1916 married Thora Christofferson.

Active in municipal affairs for many years, Mr. Lundgren was a former councillor and reeve of the Municipal District of Royal. The large attendance at his funeral and the many floral tributes attested to the esteem in which he was held by his friends and neighbors.

Besides his wife, Mr. Lundgren is survived by three sons, Major Robert O., in the Canadian Army at Dartmouth, N.S.; Gordon, at Vulcan; and Walter, a bombardier in the Army at Shilo, Man. One brother, Peter, at Calgary, also survives him, and three sisters, Mrs. Minnie Smith, Calgary; Mrs. Annie Rolander, Bolan, Sweden, and Mrs. Boda Hite, Devon, Alta. One sister predeceased him.

Burial was made in the Vulcan cemetery and pallbearers, all old friends of the deceased, were John Dorch, George Todd, Robert Irwin, Loss Kuykendall, Bert Maisey and Dan Ross.

Snodgrass Funeral Home was in charge of arrangements.

Former Vulcan Girl Wed At High River

Tucker - DeBoice

A very elaborate and beautiful wedding was solemnized at High River United Church on Saturday, March 22 at half past three in the afternoon when Donelda Mae, daughter of Mr. and Mrs. J. T. DeBoice of High River was united in marriage with Mr. Albert Douglas Tucker of Nanton.

The altar before which the wedding party assembled provided a background of fernery for a profusion of mixed flowers. White doves were also a decorative note. The marriage was performed by Rev. Dwight Powell of Nanton, and the wedding music was played by Mrs. Dorothy Bryant.

The bride was attended by a matron of honor, four bridesmaids and a flower girl, whose dainty costumes complemented each other and made a charming ensemble.

Mr. DeBoice gave his daughter in marriage, and her wedding gown was white slipper satin, with fitted bodice off-shoulder and with neckline of misty net, edged with french lace. Her long skirt was fashioned with ascending train of white satin appliqued with french lace. The full length veil was held in place with a coronet of seed pearls, and her crescent bouquet was of American Beauty roses and stephanotis.

Her matron of honor was Mrs. R. Somerville of Vulcan (formerly Miss Alice Linstead) who wore yellow nylon net with matching elbow length mitts and poke style bonnet in matching shade. Her flowers were a sheath of Tallian roses with fern and white stephanotis.

The bridesmaids chose mint green costumes, fashioned in similar style. Miss Jean Page of Calgary, cousin of the bride, and Miss Ruth Marshman of Champion, wore taffeta of mint green shade, with white gloves, matching headresses and old fashioned nosegays of pink roses and fern. Miss Lily Haynes of High River and Miss Francis Clements of Milo, cousin of the bride, wore green net frocks in mint shade. They also wore white gloves, matching headress and old fashioned nosegays of yellow roses and fern.

Little Ronny Lind of Nanton,

World Scholars and Unesco Officials Plan a History of Mankind

A six-volume history of mankind, from prehistoric times to 1957, the year of publication, is to be written by a team of 1000 leading world scholars. The sponsor of the program is the United Nations Educational, Scientific and Cultural Organization (Unesco), which is advancing \$400,000 for the work, which is estimated to cost \$600,000. The project will take five years to complete and will assemble knowledge of all races, cultures and peoples, past and present. Here are Unesco officials and members of the International Commission for a Scientific and Cultural History of Man-

kind, which is in charge of the work: Left to right, seated: Dr. Constantine K. Zurayk, Syria; Dr. Julian S. Huxley, the United Kingdom; Dr. Paulo B. Carneiro, Brazil, President of the Commission; Dr. Jaime Torres Bodet, Mexico, Director-General of Unesco; Dr. Ralph E. Turner, the United States, chairman of the editorial committee, and Dr. Carl J. Burckhardt, Switzerland. Standing: Dr. Pedro Bosch-Gimpera, Mexico; Dr. Jean Thomas, France; Dr. Silvio Zavala, Mexico; Dr. Charles Moraze, France; Dr. Armando Correas, Portugal, Commission secretary-general, and Dr. Mario Praz, Italy.

Farmers Anxious To Start

Roads and Fields Drying Slowly; Heavy Run-off

The main topic of conversation these days, as usual this time of year, is the weather. With harvest in and seeding both to be done this spring, farmers are naturally anxious to get on the land.

Snow has pretty well disappeared from the roads and fields, leaving in its wake sloughs, ponds, washed-out bridges and culverts and impassable roads. The road ban is expected to be lifted within a few days, as main roads again become firm.

Warm weather last week caused a heavy runoff, but cooler weather and a very light snowfall early this week, accompanied by frost, again slowed up the drying-out process.

Grain still in the swath is reported to be drying well, but early reports indicate that damage by mice during the winter has been heavy. Several days of good drying weather will be needed before farmers can get on the land.

A heavy demand for farm labor is reported as farmers face their double task of harvesting and seeding this spring.

Twenty houses have been condemned for human habitation by health authorities of Etobicoke, on Toronto's outskirts. One house, assessed at \$200, is equipped with television.

The date of meetings of the County Council will be the Friday of the second full week of each month, at 10 a.m.

The matter of a new assessment for the County was discussed. A letter from the Minister of Municipal Affairs advised that if a new assessment was made at this time the County would be excluded from a provincial-wide assessment should one be made at a later date. It was decided to table this matter until the next meeting and to ask P. M. Paterson, assessor, to attend.

The regular April meeting of the County Council will be held on Friday, April 18.

The regular meeting of the Scout Association was held Wednesday evening, April 2, with Norman Scotney presiding. The treasurer reported a balance on hand of \$100 after outstanding bills are paid.

The Girl Guide report showed there are now 16 Girl Guides, led by Mrs. J. P. O'Connell. Three new Guides who had passed their tests received their service pins at a recent meeting attended by the parents. The Guides hope to purchase a Union Jack and a Guide flag that are needed for official ceremonies and meetings.

Mrs. Grove reported a successful candy sale by the Brownies on Friday, March 28, when taffy was sold and a program presented. Money raised was divided between the Crippled Children's Hospital fund and the Scout Association.

Einar Kumlin reported there are now 20 Scouts, the ranks being swelled by four newcomers to town.

All groups advised of the need for semaphore flags. The necessary wood will be purchased and the flags sewn by the Ladies' Auxiliary.

District Commissioner John Hunter invited the committee to attend a special semi-annual meeting in High River on April 21. There is a revival of interest in Cub work at Black Diamond. A weekend training school for Scout patrol leaders will be held in Vulcan later in April and many out-of-town boys are expected to attend.

It is hoped that conditions will soon permit the completion of the unfinished Scout Hall.

J. E. Carlson Again Chairman

County Council Chairman And Committees Named

J. E. Carlson of Champion was re-elected chairman of the council of the County of Vulcan No. 2 at the first meeting of the 1952 council held on Thursday, April 3.

C. H. Andrews, returning officer for the County elections, gave his official report which showed that Allan McLean, Jack Dietz and J. M. McKay had been re-elected as councillors for three-year terms by acclamation.

Jack Dietz, councillor for Division 6, was elected as deputy-chairman for the ensuing six months.

Committees Named

Members of the School Committee of the council were appointed as follows: J. M. McKay, chairman; Jack Dietz, J. E. Carlson, Donald B. Smith.

In accordance with letters of direction received from the Vulcan School Board, the Arrowwood School Board and the Carmangay School Board the following were appointed members of the School Committee to represent the towns and villages within the boundaries of the County: H. W. Matlock, Vulcan; Leonard Williams, Arrowwood; D. H. Russell, Carmangay.

Municipal Committee

Members of the Municipal Committee were appointed as follows: C. W. Loose, chairman; Allan McLean and Donald McViney, the County Council, as a whole, shall be a committee to advise and assist the Municipal Committee in matters of public works, inspection and expenditures.

A motion that the County Council employ a road foreman to supervise the work of the Public Works Department was carried after considerable discussion, with Councillors Clements, McLean and McViney opposed.

Agricultural Service Board

A motion that an Agricultural Service Board be set up in the County of Vulcan was carried unanimously and the following were appointed to the Board: Councillor Donald B. Smith, Councillor Marshall Willard; C. R. Walker, farmer, Vulcan; Ken Miller, farmer, Carmangay; Hugh Michaels, District Agriculturist, Claresholm. Mr. Smith was named chairman of the Board and D. D. McQueen secretary. Four members of the Board and the secretary were authorized to attend the Agricultural Service Board conference in Edmonton April 8-9.

Date of Meetings

The date of meetings of the County Council will be the Friday of the second full week of each month, at 10 a.m.

Miscellaneous Business

Council approved the application of Norman Scotney to build a service station near the highway on the Jamison property adjacent to Vulcan, and to obtain a retail license to operate the station.

It was decided that a flag pole and flag be obtained for the County Office.

The problem of flooding from the P.F.R.A. ditch north-west of Milo was discussed and the Water Resources Department will be asked to ascertain if some action can be taken to prevent the ditch from overflowing.

Assessment

The matter of a new assessment for the County was discussed. A letter from the Minister of Municipal Affairs advised that if a new assessment was made at this time the County would be excluded from a provincial-wide assessment should one be made at a later date. It was decided to table this matter until the next meeting and to ask P. M. Paterson, assessor, to attend.

The regular April meeting of the County Council will be held on Friday, April 18.

Scout Association Hears Reports

The regular meeting of the Scout Association was held Wednesday evening, April 2, with Norman Scotney presiding. The treasurer reported a balance on hand of \$100 after outstanding bills are paid.

The Girl Guide report showed there are now 16 Girl Guides, led by Mrs. J. P. O'Connell. Three new Guides who had passed their tests received their service pins at a recent meeting attended by the parents. The Guides hope to purchase a Union Jack and a Guide flag that are needed for official ceremonies and meetings.

Mrs. Grove reported a successful candy sale by the Brownies on Friday, March 28, when taffy was sold and a program presented. Money raised was divided between the Crippled Children's Hospital fund and the Scout Association.

Einar Kumlin reported there are now 20 Scouts, the ranks being swelled by four newcomers to town.

All groups advised of the need for semaphore flags. The necessary wood will be purchased and the flags sewn by the Ladies' Auxiliary.

District Commissioner John Hunter invited the committee to attend a special semi-annual meeting in High River on April 21. There is a revival of interest in Cub work at Black Diamond. A weekend training school for Scout patrol leaders will be held in Vulcan later in April and many out-of-town boys are expected to attend.

It is hoped that conditions will soon permit the completion of the unfinished Scout Hall.

Holiday Friday

All local stores and business places will be closed this Friday, April 11, in observance of the Good Friday holiday.

Easter Monday, April 14, will be observed as a legal and bank holiday only.

Break-in At Cafe Quickly Solved

Two district young men, employed by local farmers, found out in short order last Sunday morning that "crime doesn't pay."

The two imbibed a bit too freely last Saturday - and in the early hours of Sunday morning decided it would be a good idea to break into a local restaurant. They chose the Marble Coffee Shop as the scene of their operations and gathered up about \$30 worth of cigarettes.

The theft was discovered when the proprietor opened up about 7 a.m. and quick action by R.C.M.P. Cpl. Jack Hurst resulted in the culprits being in custody within the hour and the loot recovered.

Appearing before Police Magistrate Harry Smith Monday morning, the two young men were fined \$100 and costs each or, in default, three months in Lethbridge at government expense. They were also interdicted.

Electing to pay the fines, the two will try to tread the straight and narrow path a bit more steadily from now on. It was their first offence.

Former Minister At Vulcan Dies

A United Church minister in B. C. and Alberta for 44 years, Rev. D. K. Allan, 78, of Edmonton, died Wednesday after a brief illness.

Mr. Allan served as supply minister for Jasper Place, Highlands and Central United churches after his retirement in 1945. He was also chaplain for the Royal Alexandra Hospital.

He came to Canada from Scotland in 1901 and was appointed student missionary at Wetaskiwin. He studied arts and theology at Manitoba College in Winnipeg, was ordained in 1904 and for six years was minister at Nakusp and Nicola, B.C.

On coming to Alberta he held pastorates at Vulcan, Coleman, Westlock and Tofield.

Mr. Allan is survived by his widow; one son, Graham of Tofield; four daughters, Margaret of Edmonton, Mrs. R. C. Ponting of Westlock, and Mrs. William Taylor of Rimby. Ten grandchildren also survive.

Funeral services were Friday at 3:00 p.m. in the Andrews-McLaughlin funeral chapel, with Rev. R. P. Hindhey, Rev. Wesley Bainbridge and Rev. Frank Samis officiating.

Burial took place in the family plot on the Mount Pleasant Cemetery.

chase a Union Jack and a Guide flag that are needed for official ceremonies and meetings.

He Is Risen

In the end of the Sabbath, as it began to dawn toward the first day of the week, came Mary Magdalen and the other Mary to see the sepulchre.

And, behold, there was a great earthquake; for the angel of the Lord descended from heaven and came and rolled back the stone from the door, and sat upon it. His countenance was like lightning, and his raiment white as snow; and for fear of him the keepers did shake, and became as dead men.

And the angel answered and said unto the women, "Fear not ye; for I know that ye seek Jesus, which was crucified. He is not here: for he is risen, as he said. Come, and see the place where the Lord lay. And go quickly, and tell his disciples that he has risen from the dead."

The story of the Resurrection of Christ as told in St. Matthew's Gospel is the basis for the Christian celebration of Easter—the most joyful festival of the church. It is, indeed, the basis of Christian faith.

The world today needs the promise of new life given to mankind on that Easter morn. In this hour of threatening world war, this hour of broken dreams of world peace, this hour of misery and fear throughout so much of the world, the hope that Easter brings of a better world not only in the hereafter but on this earth gives the free men of the world courage to carry on.

Through the ages Easter and springtime have become closely associated in the minds of people everywhere. The eternal mystery of the renewal of life in nature in the spring and the story of the Resurrection both bring hope to man that ultimately good will conquer evil. The message of Easter is a triumphant one.

People of our community, like those of thousands of communities all over the Christian world, will gather next Sunday in their churches to worship the Risen Christ, to pray for peace, to seek the inspiration of the beautiful music of Easter and the comfort and challenge of the Easter message. The churches here should be too small to accommodate all those who wish to take part in the Easter services.

"Ducks Could Blacken Skies"

Daily papers last week carried the following report:

"A Canadian sportsman said today (March 31) that millions of acres of barren land in Canada could be converted into a vast waterfowl hatchery that would increase the duck population 400 per cent.

Angus Gavin, general manager of Ducks Unlimited of Canada, told trustees of the United States organization:

"Ducks Unlimited has turned 1,700,000 acres of parched, useless prairie lands into a waterfowl hatchery, but we have not touched more than 10 per cent of those barren lands.

Reclamation and conversion of the waste lands into a giant chain-lake region," Gavin said, would produce enough ducks to blacken the skies in the Mississippi Valley flyway during the fall-winter migration."

Ducks Unlimited is financed by contributions from United States sportsmen."

Farmers in this part of Canada at least and particularly in Southern Alberta would like to ask Mr. Gavin just one question. Who is going to feed these hordes of ducks he envisions while they are on their migratory flights? After last year's experience, when the Vulcan area alone lost an estimated \$400,000 worth of grain from duck damage without any hope of recompense or future control, the prospect of fattening even larger flocks of ducks for the benefit of American sportsmen would hardly be greeted with cheers by Canadian grain farmers.

To The Dogs

Having listened to three people of fifty and a bit sitting dolefully over their coffee cups and deploring the manners, morals, disciplines and culture of the younger generation, for a matter of twenty minutes, we left in a black frame of mind. Manners were at a very low ebb, morals were racing to the dogs, discipline was all gone to heck, culture a mockery. It looked like a good spot for an editorial "We view with alarm..."

When you get down to writing editorials the causes usually have to be examined. Why has the new generation gone to the canines? The older generation was in control of the new for a period of eighteen to

twenty years. If they couldn't make a disciplinary impression in eighteen years, couldn't offer sound moral examples for twenty odd years, couldn't present their children with some slight cultural training and teach them attractive manners we think they must have been incompetent. If they didn't have the strength of character, the understanding and good sense, the adroitness and firmness to make some sort of impression on children when they were young, who is to be blamed?

It's all very well to blame the movies or books or teaching methods or original sin but when parents have an opportunity to influence children for fifteen or twenty years, while teachers influence them only a few hours a day and movies a few hours a week, it seems to us that parents are certainly wasting their opportunities. This business of groaning over the disrepute into which learning has come, lamenting the lack of respect for authority, speaking of the unspeakable morals of the young, is not any newer than cuneiform writing or the scratchings on papyrus.

CARD OF THANKS

I wish to extend my thanks to Dr. Tompkins and the hospital staff for their kindness to me while I was a patient in the hospital. I wish to thank my neighbors and friends who offered help, also for the lovely flowers and cards. Also to all those who visited me.

—E. Munton.

CARD OF THANKS

We wish to express our appreciation and thanks to Rev. J. S. Clarke of Vulcan, the choir, pallbearers and friends and the Lomond community for their kindness in our recent bereavement.

—The Linstedt Family.

CARD OF THANKS

Sincere thanks to Mr. and Mrs. Stephen Fath of Calgary and my many friends who came to visit me and sent candy, cards, letters and words of greetings while I was a patient in the hospital.

—Eileen Strauss.

CARD OF THANKS

I wish to express my appreciation to Dr. Tompkins and the nursing staff for their kindness and to my many friends who sent flowers and cards while I was in the Vulcan hospital.

—Mrs. William McLeod.

PUTTING PEP IN CROPS

The fertility of your soil is like a bank account. You can't keep taking it out, without putting some back in.

Today's demands for more production and greater yield at lower cost need the proper use and application of fertilizers to pastures, grain fields and all areas where produce is grown. These fertilizers will help replace in the soil those minerals so essential to plant growth.

The manager of your branch of The Canadian Bank of Commerce represents a bank that has for many years taken a keen interest in promoting better farming and in looking after Canadian farmers' banking needs. Why not pay him a visit?

The Canadian Bank of Commerce

ARMADA

Community Club Meeting

The monthly meeting of the Armada Community Club was held in the Legion Hall, Wednesday with Mrs. E. Howell presiding. Twelve members were present and Mrs. N. Kunkel acted as hostess for the afternoon. After the usual opening of the meeting a lengthy business discussion took place. It was decided to postpone the shower for Mr. and Mrs. Barry Middleton until the afternoon of April 9. The members were in favor of raffling a tablecloth, which had been worked by Mrs. I. Kunkel and a fish pond at the annual bazaar. The contest was won by Mrs. K. Sokvitne. The raffle was won by Mrs. S. Bohnet. Lunch was then served by Mrs. N. Kunkel, Mrs. S. Bohnet and Mrs. W. Lucas.

Mr. and Mrs. I. Magnusson arrived home from Calgary Monday where they had spent the last few days.

Brian Bohnet is home from the hospital after recovering from a recent attack of pneumonia.

Mrs. Larry Hagg and children are visitors at her parent's home, Mr. and Mrs. C. Stokes.

Mr. and Mrs. S. Marks and family were Calgary visitors Monday and Tuesday.

Due to the bad roads many of the Armada students are staying with friends and relatives in town. Twin calves were born to a Jersey milk cow Sunday afternoon on the Art Marks farm.

It looks like old times again in the Armada district as teams and wagons and horse and cart are quite common sights since the thaw.

Spring is always a season long looked for but it also has its disadvantages. Two dams, if not more, have already been washed away. One of these was on the Chamber's farm, the other being that of Mr. Birkeness.

Spring often has its little incidents that create a few chuckles. The other day just after the thaw reached its peak, George Brotherhood decided to go out and do a few chores around his yard. Those who are acquainted with Mr. Brotherhood's farm know his yard is just like a small lake every spring. A few minutes after he left the house his brother thought he would join him but found his rubber boots were not high enough. Mr. Brotherhood, whose boot-tops were just barely above the water, called to his brother, "Walk on your tip toes, that's what I'm doing."

Another farmer went down to his dam and found a couple of muskrats had made their home in it. As he was standing there, suddenly the water made its way into the hole and with the terrific pressure forced one muskrat out his back door and several inches into the air. Then downstream swam Mr. Muskrat leaving his damage behind him. Incidentally, this was one of the dams which washed out.

LOMOND

The Badminton Club held a meeting on Thursday evening, March 27. They decided to extend the season until April 15. Also to have a party and dance for the Club and ex-members on Tuesday, April 1. The younger members were put in charge of committees for lunch and entertainment. Each member could invite one guest.

A party for the Badminton Club and ex-members was held on Tuesday evening April 1. Badminton was played until 11 o'clock followed by a very nice lunch. Mr. A. Fraser then played the piano for a couple of hours of dancing. April Fool jokes were handed out as prizes for spot dance and Elimination dances. A very enjoyable time was had by all present.

The Fishermen's Ball has been postponed again until April 25.

Mrs. J. C. Rumhor and twin sons are spending some time visiting Mrs. Rumhor's parents, Mr. and Mrs. Norman Erskine.

A Badminton Tournament for the Junior Club was held in the Community Hall on Sunday afternoon, March 30. Mrs. S. Craig and Constable G. Hacking attended to the games and scoring. A very nice lunch was served about 5:30 p.m. The day being much enjoyed by the children.

Mr. and Mrs. Earl Armstrong were visitors in Calgary on Tuesday, April 1. They were accompanied by Mrs. A. S. Humphrey.

The Vauxhall, mail man was unable to get to Lomond on Wednesday, April 2 due to the bad roads. This was the 1st trip in a year that he missed.

Miss Odell Degenstein has returned to Drumheller where she spent most of the winter months. She expects to be employed in a Ladies' Wear Shop there.

E. Linley left Lomond on Monday April 2 to take up duties at

the Revelstoke Lumber yard in Albx. His family will follow as soon as the road ban is lifted.

Jerry Root is spending several weeks vacationing in Vancouver. Mr. and Mrs. C. Booth have returned home after spending several months vacationing in the States.

E. A. Donaghy spent last week in Calgary visiting his father who is a patient in the Holy Cross hospital.

J. B. Decaire is the new manager of the Revelstoke Lumber yard in Lomond.

Friends of Mrs. Thos. Chapman will be sorry to learn she is ill and a patient in the Vulcan Hospital. All wish her a speedy recovery.

EASTWAY

Ed McFarland has returned from Arizona where he spent the winter.

Robert Mitchell visited his farm last week in preparation for moving back for the summer.

Mr. and Mrs. Arthur Tharlie and sons Gale, Garry and Bobby have moved to their farm in this district for the farming season.

Recent Calgary visitors include George Gooch, Mr. and Mrs. Dick Brodrick, Mr. and Mrs. Archie Oldfield, Mr. and Mrs. W. Burgess, Mr. and Mrs. Frank Wyatt, Ray Onstad and Mrs. Cockwill Sr.

Bill Crossfield left by motor on Saturday to visit in Hanna and Lyma.

Mossleigh can still be reached only by a long detour east and north.

Mr. and Mrs. Les McAllister and Mr. and Mrs. Norman Baker of Blackie visited Mr. and Mrs. Joe Sultor Sunday last.

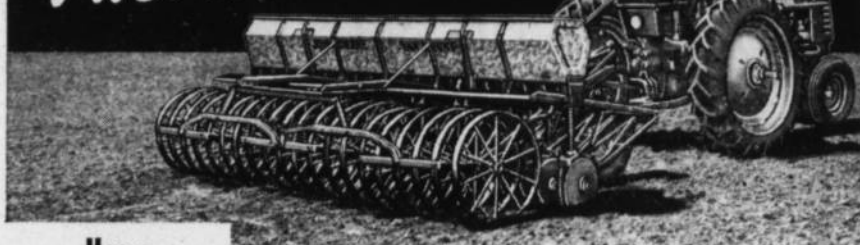

Several ladies of this district at-

tended the tea and bazaar put on by the Jr. Red Cross Society under the direction of Miss Somerville in Mossleigh last Saturday.

Mr. and Mrs. Bud Crick, Darlene and Echo, of Vulcan were out Sunday visitors at the Grondin home.

The art of conversation is dying out, according to a writer. He should visit somebody who has just had an operation.

CUT EROSION LOSSES WITH PROPER PLANTING

Use a
**JOHN DEERE
VAN BRUNT
Model "LL"
Grain Drill**

Protect your crops against blowing, drouth, or winterkill; depend on a John Deere-Van Brunt Model "LL" Grain Drill. It plants at uniform depth and packs the soil over the seed to conserve moisture and keep valuable topsoil at home... cutting erosion losses.

The John Deere-Van Brunt plants all seeds with dependable accuracy... in any recommended quantity per acre. It can be equipped with single-disk, double-disk, hoe, or deep furrow openers. See us for complete details.

Champion

The Champion Home and school Association held its regular monthly meeting at the Champion Public School on Monday evening, March 31. The members enjoyed a travelogue in pictures and a talk by representatives of St. John's Ambulance Corps, Mr. W. L. Warke, of Calgary, who is the Organizer for Southern Alberta, and E. C. Emmott of Edmonton. These gentlemen spoke of first aid work and suggested it would be a very fine project for the local Home and School Association to undertake.

Miss Muriel Barber was chosen as a delegate to attend the Convention of the Home and School Association in Edmonton.

Mr. and Mrs. A. L. Siler were Lethbridge visitors on Friday.

The District Nurse will be holding pre-school clinic in the basement of the Community Hall in the future.

Mrs. Daisy Keenan and Mrs. Alice Hummel are attending the Convention of the L.O.D.E. in Edmonton.

Mrs. R. Hegland and Mrs. Jim Allon are attending the Women's Institute in Lethbridge this week.

Mr. and Mrs. Ben Leback and family have taken up residence in Vauxhall. The house formerly occupied by them has been purchased by Mr. Koenig.

Cliff Miller has been confined to his bed with a bad case of the flu. Mrs. Grace Hutchison of Anderson, Mo., is visiting at the home of her brother-in-law, Mr. Ray Warren. Mrs. Hutchison will be in the district for some time.

Dick Meares and Miss Mary Dobbs of Anderson, Mo., brother and niece of Mrs. Ray Warren, were in town for Mrs. Warren's funeral.

Mrs. Bertha Pogue and Mrs. Ketta Hayman, of Anderson, Mo., spent a few days in this district. Mrs. Jennie Huss of Shelby, Mo., was in town to attend the funeral of Mrs. Warren.

Mr. and Mrs. A. Howerton motored to Calgary Saturday afternoon, returning to Champion Sunday evening. Mr. F. E. Lent, Mrs. Howerton's father, returned with them.

Mr. and Mrs. A. Schmidt accompanied by Geo. Hartung were Calgary visitors last week.

Mr. and Mrs. Alex Hartung and family were Lethbridge visitors last week.

Miss Irma Hartung is a patient in the Vulcan hospital.

Mrs. Harry Smith has been quite ill and is a patient in the Carmangay Hospital.

Mr. and Mrs. Wilbur Matlock have returned home after spending three weeks in Eastern Canada and U.S.A. visiting relatives at Quebec and in Pennsylvania.

Mr. and Mrs. Ed. Coe are patients in the Carmangay Hospital. Mr. Hildebrandt Sr. is a patient in the Carmangay hospital.

Champion W.A.
Champion W.A. Tea and Fashion Show was very well attended on Saturday, April 3. The tea tables were prettily set with spring flowers, bringing to mind the time has come to think of the summer.

The garments loaned for the occasion by Mrs. Lillian Jones were modelled by Mrs. Emily Fraser, Mrs. Guy Dow, Mrs. Glen Racher, Mrs. C. Versluis, Mrs. J. C. Anderson, Gloria Fraser, Ruth Stewart, Elaine Granlin, Irene Bonetto, Marilyn and Judy Christensen, Sharon Erickson, Vanda Fisher and Gail Jones. Mrs. Kay Christensen played the piano and Miss Elaine Granlin sang during the intermission.

Miller-Marshman
Champion United Church was the scene of a lovely spring wedding on Thursday, April 3, when Ruth Mary, only daughter of Mr. Ed. Marshman exchanged marriage vows in a double ring ceremony with Mr. Norman Miller, son of Mrs. F. McIntyre of West Vancouver, B.C. Rev. Clark of Vulcan officiated.

The bride, beautifully gowned in brocade satin, was given in marriage by her father. Her veil was of silk net with coronet of pearls. Her gown was also beaded with pearls. She carried her mother's prayer book with an orchid. The bride's attendants were Mrs. Harold Marshman, matron of honor, who wore an apple-green taffeta dress with nylon yoke, Mrs. John Carlson, bride's matron, gowned in yellow net, and Miss Gloria Fraser, who wore a rose taffeta dress. The attendants all carried bouquets of carnations in complimentary colors.

The groom was attended by Mr. John Bremner and the guests were ushered to their places by Mr. Harold Marshman and Mr. Bob Marshman. The wedding music was played by Mrs. T. P. Carlson and Miss Elaine Granlin sang "O Promise Me" during the signing of the register. A reception was held in the dining room of the Community Hall where covers were laid for 60

guests. Mr. Earl Erickson proposed the toast to the bride and the groom suitably responded.

Mr. Erickson read telegrams of good wishes from San Francisco, West Vancouver and Edmonton. Miss Elaine Granlin sang "I'll Walk Beside You". Misses Carole Fraser, Darlaine Hegland, Ruth Brett and Ann Anderson assisted in serving.

The bride and groom, wearing matching suits of brown gabardine, left for a short honeymoon in Calgary. The bride's accessories were in Kelly Green and she wore an orchid corsage.

Out-of-town guests were Mr. and Mrs. Earl Erickson, Mr. and Mrs. Howard Marshman, Mr. and Mrs. Cliff Marshman and son Don, Mr. and Mrs. John Leon, Miss Ruth Brett and Mr. Pete Langdon, all of Vulcan.

Mr. and Mrs. Miller will be making their home in Edmonton.

With The District Agriculturist

Hugh Michael

Control of Lice on Cattle

The following was taken from leaflet No. 319, published in December 1951 by the Agricultural Research Administration, U.S. Department of Agriculture.

You can control the common cattle lice with rotenone, Pyrethrum, DDT, methoxychlor, TDE, Toxaphene, lindane, benzene hexachloride and chlordane. All these materials are recommended for use as sprays on beef cattle, but rotenone, pyrethrum, methoxychlor and lindane are the only ones at present recommended for application on dairy cows. Rotenone and DDT also may be used as dips. If you prefer a dust, use methoxychlor, rotenone or lindane on dairy or beef cattle and DDT on beef cattle. Some of the other insecticides may also be satisfactory as dips or dusts, but we do not have sufficient information to make recommendations as to their use.

These insecticides are sold in various kinds of formulations. Most of them are available as wettable powders or emulsifiable concentrates, which must be diluted with water before using. Some dusts may be obtained ready prepared at the strength recommended for use, others must be diluted with an inert carrier.

Some preparations may not be available in all parts of the country. The amount of insecticide in the concentrates varies with the kind and brand. The label on the container will tell you the strength of the product.

German Single Workers Available to Farmers

It is expected that single German farm workers will be available for employment by May of this year. These workers are being brought forward with the intention that they will be offered year round employment on Canadian farms. Minimum wages will be \$55.00, \$60.00, \$65.00 and \$70.00 respectively for the first four months of employment. After that time, it is expected that the worker will be paid in accordance with what he is worth and by mutual agreement between him and the farmer.

Special application forms are being prepared at Ottawa and will be available from this office to any farmer who is interested in obtaining one of these workers for year round employment.

SINCERE THANKS

We wish to express our sincere appreciation to all who sent cards and flowers and called during the illness and death of Mrs. Ray Warren, and we wish to thank all those who helped in any way.

—Norma Jane and Ray Warren

Wheat Varieties For Southern Alberta

Thatcher and Rescue are the two principal spring wheat varieties recommended for southern Alberta in 1952. Thatcher is a high yielding, widely adapted variety which performs well in the southern areas where sawflies are not a problem. Rescue, a solid-stemmed, sawfly resistant variety is recommended for those areas where sawflies cause crop damage. In such regions, Rescue will give better economic returns and will provide control of this insect pest. However, because Rescue is slightly lower in yield than Thatcher and because it is not eligible for grades higher than No. 3 Northern, it should only be grown in sawfly infested areas.

Thatcher is resistant to lodging, shattering, and spring frost damage. Its kernels are small and tend to bleach when exposed to weathering. In disease reaction, Thatcher is resistant to stem rust (except race 15B) and loose smut

but susceptible to bunt and leaf rust. Rescue is resistant to shattering but more susceptible to lodging and spring frost injury than Thatcher. Compared to Thatcher, Rescue has larger, brighter kernels which have less tendency to bleach. It is resistant to stem rust (except race 15B) but it susceptible to leaf rust, loose smut, and bunt.

Saunders, which matures two to five days earlier than Thatcher, is recommended for the foothills region where fall frost is sometimes a hazard. In this particular area, the yields of Saunders and Thatcher are similar although Saunders is lower in yield on the plains. Saunders is resistant to shattering and lodging. It is resistant to stem rust (excluding race 15B) and loose smut, moderately resistant to bunt and susceptible to leaf rust.

Seed of the new sawfly resistant variety, Chinook, will not be available for distribution before 1953. Chinook yields well and produces a higher bushel weight than Thatcher under dry conditions.

For further information about varieties, write to your nearest Dominion Experimental Station or District Agriculturist for a copy of the bulletin "Varieties of Grain for Alberta."

A WORLD OF POWER For Your Farm

There is a farm-tested Massey-Harris tractor to suit your needs. Take your pick of 28 great models... 6 power sizes... row crop, standard, high arch, or single front wheel trends... gasoline, distillate or diesel engines. You get more power in a Massey-Harris... more lugging ability at the drawbar... more capacity on the belt... more reserve, stamina, dependability. It's the result of high compression in the engine and straight-line design in the transmission. High compression gives your Massey-Harris plenty of pep, quick response... longer power life. Straight-line transmission design delivers power directly to the drawbar... straight as an arrow. Come in and see the power and economy leaders in the tractor field. Get on one... drive it. You'll decide a Massey-Harris is the working partner you need.

ASK FOR A DEMONSTRATION

Carmangay

Mr. and Mrs. Arni Dahl were Calgary visitors for several days, where they attended the funeral of Jack Evans, who passed away very suddenly.

Mr. and Mrs. C. Kiss and son Coleman of Buck Lake were visitors at the home of Mr. and Mrs. E. Lazo Sr. last week.

Mr. and Mrs. F. Hauser and Theresa were Lethbridge visitors last Saturday.

Edward Ness of Calgary spent last week end with his parents, Mr. and Mrs. John Ness.

Mr. and Mrs. W. C. Burke and Gordon Ensign spent several days in Calgary last week.

Mr. and Mrs. E. Watwood and family have moved into the new Independent Elevator home.

Congratulations to Mr. and Mrs. Wm. Untinen on the birth of a daughter on April 2nd in the local hospital.

Mr. and Mrs. Walter Crow of Medicine Hat were weekend guests at the home of Mr. and Mrs. Roy Craig. Mrs. Crow Sr. accompanied them and will remain at the Craig home.

Mr. and Mrs. Gilbert McGinnis and family and Mr. and Mrs. Dale Clarke and daughter spent last weekend at Great Falls.

The C.P.R. foreman's house has been moved to a new site, south of the depot and west of the hotel but still on the west side of the tracks. This move was necessary because the cut bank had caved away to within a few feet of the house. Mr. and Mrs. West and family stayed with friends while their home was being moved.

Mr. and Mrs. Carlton Burke of Calgary are visitors at the home of the former's parents, Mr. and Mrs. W. C. Burke.

Mr. and Mrs. Tom Watson have moved into the Andy Howarth farm which they will farm in the future.

Mr. and Mrs. Alec Hauser and Linda are back on the farm preparing for the spring work.

Carmangay and district still has some harvesting to do. With the warm weather and wind, crops were drying up favorably until Monday's snow fall put a stop to it again.

Mr. and Mrs. Roy Burns were Lethbridge visitors on Tuesday.

Mr. and Mrs. E. Versluys and son of Fincastle renewed acquaintances in town last week end.

Mr. H. Fykes attended the Principals' Meeting in Vulcan last Tuesday.

Mr. and Mrs. John Hurnanen have returned from Camas, Mont.,

where they spent three weeks taking medical treatments.

Mr. and Mrs. Lynn Milliken motored to Lethbridge on Tuesday.

Miss Iris McPherson of Los Angeles, Cal., has been a guest at the home of her sister and brother-in-law, Mr. and Mrs. Louis Lazo.

Mrs. Bernard Butterwick and son are visiting at the home of Mr. and Mrs. Ben Brown. Mr. Butterwick is a patient in a Lethbridge hospital.

Mrs. A. Lund, Mrs. Gower and Mrs. D. H. Russell attended the Tea and fashion show in Champ-ion last Saturday.

Mrs. W. White Sr. is a patient in the McLeod Hospital at present.

West Country Women's Club

Mrs. Loren Roemmele was hostess to the West Country Women's Club on Wednesday with four members and three visitors present. There was no business meeting. A social afternoon was enjoyed playing hearts. Mrs. Geo. Dapies was the prize winner. Mrs. Roemmele Sr. won the raffle. A delicious lunch was then enjoyed.

Old Time Dance

The Hall Board sponsored an Old Time Dance last Friday with a fair crowd in attendance, due to the roads and the sickness throughout the district.

Mr. and Mrs. E. Nowlin Sr. won the prize for the oldest couple present.

Mr. and Mrs. Caspar Untinen for the couple being the longest in residence in Carmangay district. Mr. and Mrs. Frank Teskey won the prize waltz. A delightful time was had by those present with Jimmie's Swing Band in attendance.

North Priscilla Club

Mrs. Emma Hauser entertained the North Priscilla Club with 10 members present. The roll call was answered with an April's Fool's prank that had been played. It was decided to play bingo at some of the clubs as entertainment with one prize being given and a grand prize at the end of the year.

At the close of the business meeting the members enjoyed bingo with Mrs. A. Hauser, Mrs. E. Church, Mrs. C. Stettner and Mrs. G. H. Nelson being the winners.

The raffle was won by Mrs. Edith Church. A delicious lunch

was then served by the hostess.

Home and School Group

The Home and School group met on Tuesday with representatives from the St. John Ambulance Corps present. A lecture on Civil Defence was given. A travelogue was shown of their work through the North Alberta centres. Both were very interesting. Due to roads and sickness only 16 were in attendance.

Miss Hammer's room won the prize again for the most parent's present. The hostesses for the evening were Mrs. Wallace Miller, Mrs. J. Letal, Mrs. Paul Plourd Sr., Mrs. Doreen Smith and Mrs. L. Roemmele.

The card party which had been planned was postponed until roads are fit for travel.

Women's Association

Members of the Women's Association held their April meeting in the Sunday School Room of the United Church last Friday. Mrs. Vilas Teskey resigned as secretary treasurer and Mrs. Bertha Gray is the secretary treasurer for the remainder of the year with Mrs. Greta Soderquist as the president.

Plans were made to cater to the wedding reception for the Wennes McLeod wedding on April 18.

The hostesses for the afternoon were Mrs. W. Soderquist, Mrs. Gray and Miss Grace Hillard

New Alberta Highways To Be Built Wider

EDMONTON — Highways Minister Taylor Monday night told the Alberta Legislature how the province distributes its road grants to local governments—the improvement districts, the special areas and municipal districts.

The five factors used in determining the grants to each are the population, the assessed acreage, the total assessment, the number of miles of main highways in the district and the topography of the land.

Mr. Taylor said this formula, drawn up by engineers, is used in an attempt to be fair to all.

The only strings attached to the grants, made on the basis of 75 percent contribution by the province and 25 percent by the district, were that the district must use at least 40 percent on district roads and it could use 10 percent on maintenance of district highways.

This system of grants which allows the rest of the grant to be used on local roads had resulted in a great improvement in the roads in improvement districts, special areas and municipal districts.

The minister said the day is rapidly approaching when it will be necessary to build district

highways wider than the 20 to 24 foot strips now in use. The 66 foot road allowance wasn't wide enough. This would mean wider allowances but all local governments were not yet ready to obtain wider allowances.

The only specifications made by the government with its grants concerned height and width. There were no specifications regarding gravel. But the work was inspected to see that it comes up to a "reasonable standard." Engineers conferred with and advised the local governments but hadn't the final decision.

A GENERAL MOTORS VALUE

Buick Custom Riviera

"We did it Again!"

The dynamic darlings pictured here are the 1952 Buicks.

They have the mightiest engines in Buick history.

They have the biggest brakes of any postwar Buick.

They are the quietest cars that Buick ever built.

They have the richest fabrics and smartest tailoring that ever graced a Buick's interior.

They have the greatest amount of usable trunk space since spare tires moved off the front fenders.

They have the most superb ride in Buick's history.

They have the finest carburetors that Buick research has ever devised.

And with all their power, they deliver more miles per gallon.

But that is not all.

For those who wish it, there is a brand-new version of power-steering on the ROADMASTER series that works like a helping hand—gives you the same sure feel of control you have always known, but never takes more than four pounds of effort to turn the wheel.

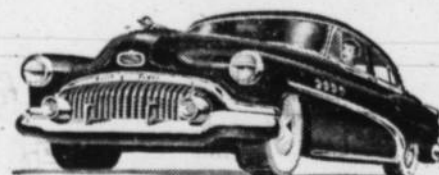

You'll find a host of notable features in all Buicks—ROADMASTERS, SUPERS and CUSTOMS too—plenty to make them, as always, the standout buys in their fields for ride, for comfort, for style, for room, and for power.

Come in—look this triumphant trio over—and you'll decide that now is the time to put your best foot forward and own a Buick.

Equipment, accessories, trim and models are subject to change without notice.

Give your SEED GRAIN an EXTRA CHANCE

Unfavorable harvesting conditions may have made your seed grain low in vitality, poor in germination—subject to root rot and other soil borne diseases. It will pay you to treat seed grain with Leytosan or Leytosol.

LEYTOSAN

Leytosan mercurial dust checks root rot, controls smut and leaf stripes of oats and barley. Mercurial Dressings are the only form of seed treatment effective with smut, root rot and increased germination of all grains.

LEYTOSOL

Leytosol (wet treatment) effectively controls smut, root rot and soil borne diseases, increases germination. Has NO SMELL, no dust, no fumes.

Greater Economy - Less Wear

WHEN YOU LUBRICATE WITH

MARFAK

IT STICKS TO THE JOB— UNDER THE TOUGHEST WORKING CONDITIONS

Texaco Marfak protects bearings and wear points when the going is tough. It ensures many more safe hours of safe operation between lubrications. That's because Marfak won't pound out or squeeze out, won't wash or jar off and it seals out grit and dirt.

You'll get smoother, more dependable, more economical performance from all your farm machinery when you lubricate with Marfak—the tough chassis lubricant that stays on the job.

"It makes such a difference"

Mrs. Helen V.... was so pleased by the courteous treatment she received from a bank teller during a holiday trip that on her return home she wrote:

"It was really a pleasure to transact my modest banking affairs with you and I think the bank is very lucky to have such a charming and welcoming young woman with them. It makes such a difference when one is travelling to feel so at home."

At your own local branch, at any branch of any bank, you will find bank people going out of their way to look after you, efficiently and courteously. That is the way the chartered banks compete with each other for your business.

This advertisement, based on an actual letter, is presented here by

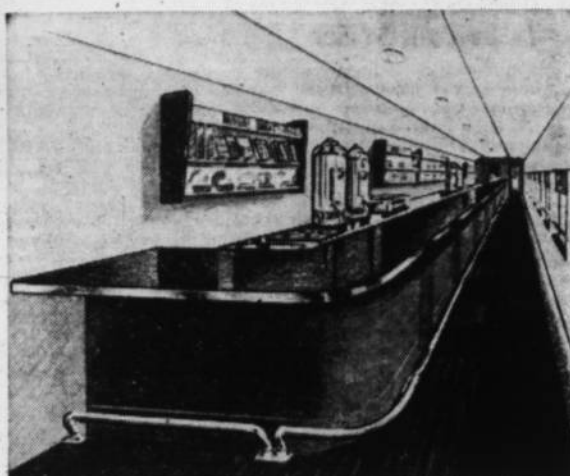

THE BANKS SERVING YOUR COMMUNITY

A shopping habit, like others, is hard to break

—That's why people prefer to shop in the stores to which they are most frequently invited—those stores which tell of their offerings in

THE VULCAN ADVOCATE

An artist's impression of the interior of the Canadian Pacific Railway's new restaurant-counter cars which will go into service soon to feed over 50,000 immigrants which the railway expects to carry from eastern Canadian ports to points across the country during 1952. The new cars follow

a design conceived by the C.P.R.'s sleeping and dining, colonization, and mechanical departments after tests conducted last year with stripped-down standard dining cars proved the need for newly designed equipment. Their aim is to provide less costly meals more quickly in a setting which will make the traveller feel at ease.

THE FARMER AND THE CITY

(R. J. Deachman)

From time to time there crops up in our papers and magazines expressions of regret that boys born on the farm move into the cities and the place which once knew them now knows them no more. Many of the chaps who write these stories were born on the farm. Some of them, as they write their prophecies of the nation's downfall, shed a tear for the old farm but wouldn't go back to it—not for anything in the world.

The Pioneer

Throw sentiment to the winds. Let us examine the facts. This country was populated first by the early French settlers. Then came the Anglo-Saxon group, Scotland—put that first on the list, my mother came from there—then the English and Irish. They had been brought up where land was scarce and dear, where the landlord, rather than the man of millions, was the man of power and destiny. It was only natural that they should turn to farming in the new world. They are the real pioneers—the landlords in Canada were relatively unimportant. The life of the pioneer was hard and stern. He lacked modern equipment of the kind we now possess. With crude tools he cleared the land. It was a difficult task. If you doubt that statement find a big green stump, fresh-cut, then try digging it out by the roots.

Huge stones were removed by piling on top of them a load of old knots and limbs from the bush. They split the stones with fire, then carted them away. The work was arduous. They had little time for leisure. It took the youth and spirit out of the pioneers. They were old at fifty and the next generation—the youth of those days—made up their minds to leave the farm, get into the city. It meant lighter work and it was closer to educational facilities for the coming generation. They would find or make a job for themselves. They grew older but their sons and daughters did not go back to the farm they knew their history, they built the cities.

The Farm Revolution

Came the change! The grain cradle is no more. It appears only in museums—the farm is a new place, modern machinery enables one man to do the work of many but hired help is harder to get. The movement from the farm to the city seems to have tapered off a bit. The return movement is not making great progress but there is every reason to believe that it may take place.

Countervailing forces are at work. The cost of living has increased. Wage rates are high in the cities but the thoughtful may wonder if the new rates will hold. In the past wars have led to depressions and though some seem to think that we can now control the business cycle, and that there will be no depression while there are others who "hold divergent points of view." When wages are raised prices go up. Labor receives today approximately the same percentage of the product produced as it received sixty years ago. True its capacity to produce, thanks to improved machinery, gives to the worker a higher earning power. This is, in part at least, offset by the high cost of living. The worker in the city, while he may have a so-called higher standard of living soon finds that it adds little to the joy of life.

The New World

What of the future? The population of our cities is growing rapidly. Congestion tends to increase the cost of living, lessens the comforts of normal existence. The man on the farm normally owns his own home, grows his own food, his cost of living is lower.

The costs of the products he consumes reflects a wholesale not a retail price. The automobile has removed the feeling of farm isolation. There is still the old fear of a drop in the price of farm products but the danger is not so pressing as it has been.

If the world can maintain peace there will be a period of expanding business. Consider for instance the different continents of the world. Europe at present devotes her main effort to maintenance of a high level of military expansion. It is a tough ideal. No single European nation can escape that burden.

Asia is in a turmoil of revolution or revolt at conditions which exist. Africa lacks capital, the great bulk of the people are uneducated. The picture is one of uncertainty. In these countries, here and there, is the threat of war. The result is that, so far as we are concerned, the boundaries of the world are restricted. This too will pass. War and the threat of war may arrest for a time the march of human progress but there comes a day when our sense of direction alters. Humanity once more is on the march.

The Ideal Field Shelterbelt

Under the climatic and soil conditions of Western Canada the ideal field shelterbelt is not easily developed or often found. Because of the many advantages of well-developed and properly cared for field shelterbelts farmers are urged to aim at the ideal.

An ideal shelterbelt should:

1. Reduce wind velocity thereby lessening soil erosion and reducing loss of moisture directly from the soil and indirectly through plants.
2. Give needed protection to young plants growing in adjoining land.
3. Control movement of snow so that the soil and perennial vegetation (hay crop) may remain protected by snow in winter.
4. Delay melting of snow in spring.
5. Provide protection to beneficial birds and afford nesting facilities.

For general crop production, a very dense growth is not the most desirable. A reasonable amount of snow drifting through a field shelterbelt on to adjacent land seems to be more desirable than concentrated snow accumulation near the belt. Where roadside protection is the main objective density may be desirable.

In general, single-row field shelterbelts, at about 40 rod intervals, are considered the most practicable. Alone, the shrub-like common caragana, which may develop to a height of 10 to 20 feet does not seem to give enough height for best results.

The introduction of taller-growing trees like ash, elm and boxelder, into the caragana row at intervals of 8 or 10 feet is favored. Caragana is invaluable in lessening wind influence at ground level.

Another factor which has a bearing on the design of field shelterbelts is the modern-day method of tree planting. With a tree planting machine where there are two men handling the trees, the trend is more and more towards planting caragana (or other shrub) and a tree, such as elm, ash and maple, alternately in the row. The advantage of this plan is that one man puts the caragana plants in place while the other man plants the trees. At a spacing of about 18 inches between trees an effective field shelterbelt may soon be expected.

For full information on Planting and Planting Field Shelterbelts write to The Forest Nursery Station, Indian Head, Sask.

IRON-RICH FOODS

For those who require food with a high iron content, the variety meats are a rich source of supply. In addition to their nutritive value, these economical meats (kidney, liver, heart and tongue) may be made into very tasty dishes. Eggs, too, as well as vegetables, like dried beans and peas, cabbage, beets and spinach, are iron-rich. Dried apricots, prunes, raisins and peaches are also good sources of the mineral.

What counts in a man's life is the number of opportunities he grasps. Small men waste their time looking for big opportunities, without preparing effectively to capture them when they come within reach. The big man uses his time taking advantage of the little ones as they come.

Why is it that so many people think that being broke is something to write home about.

WANTED a new kind of CRUSADER

to help fight the strangest, strongest foe the world has ever known. **CANCER**

Cancer that will kill 2 million living Canadians unless it is controlled.

Cancer that will cause untold suffering and anguish... unless it is checked.

This crusader's name? It could easily be your own. You see he is any generous person, fighting cancer by giving freely to the Canadian Cancer Society's Cancer Crusade.

Will you be that kind of crusader? Will you help us fight cancer? Remember... a victory now may mean protection for you later.

Without your support we may be defeated. With it, there is nothing we cannot do. Won't you help us by doing all you can in this great crusade

District News

BERRYWATER

Edgar Hendrickson of Beechy, Sask. is at present employed on the N. K. Budd farm, while his brother Larry is working on the H. C. Douglass farm. Also employed by the Douglasses for the summer months are Mr. and Mrs. William Loos of Nipawan, Sask.

Three musicians of Calgary, scheduled to play at Queenstown last Friday, were stalled overnight in a mud hole three and one half miles east of Red Cross school. They had breakfast Saturday morning at the home of Mr. and Mrs. Leslie Richardson.

Mr. and Mrs. D. B. Smith and Russell motored to Calgary on Sunday, Mr. Smith going on to Edmonton later.

Mr. and Mrs. Stan Wickstrom returned home Saturday from a week spent visiting with relatives in Calgary.

Mr. and Mrs. D. B. Sim went to Edmonton by train the first of the week, where Mr. Sim will be a delegate from Milo Co-op, at the annual convention of the Alberta Co-Operative Wholesale Association.

Jack Smith is spending several days in Calgary this week.

KIRKCALDY

Mrs. A. W. Maisey, W.I. convenor of Little Bow Constituency and Mrs. Donald MacKay, delegate for the Kirkcaldy W.I. attended the district conference in Lethbridge on April 3 and 4.

Mr. and Mrs. Jim O'Reilly and Bryon were Lethbridge and Taber visitors over the weekend.

Friends of the district extend their deepest sympathy to Mrs. Lundgren and family on the death of Mr. Lundgren who passed away at his home last week.

Mr. and Mrs. M. Scobie and family were Lethbridge visitors on Saturday.

MAJORVILLE

The sweetest mile in all the world is the last mile home. The person who penned the song never had a home at the end of a mile of prairie road during the spring thaw. This is the time of year when the prairie loses its appeal. However, mild weather and drying winds the past week have vastly improved the condition of the roads and except for a few places where wash outs have occurred travelling should be easier from now on. Few indeed will be sorry to see the end of winter.

John Bartsch was a visitor to Edmonton to attend a meeting of the Aberdeen Angus Breeders' Association.

Our belated congratulations to Mr. and Mrs. Preston Mills on the birth of a daughter last month in Vulcan hospital.

Friends and neighbors of Fred Bertschy will be sorry to learn he is a patient in the Holy Cross hospital in Calgary. Fred was taken ill during the worst of the thaw and the tractor had to be pressed into service to pull the car as far as the store, thence to Vulcan and then to Calgary. It isn't known at present whether Fred will have to undergo an operation.

Mrs. Smith, who spent the winter with her sisters in Victoria, B. C., has returned home.

Mrs. Hugh Winch is home from California after visiting her mother and brothers.

We send our congratulations and best wishes to Mr. Stukart who now resides in Calgary on his 70th birthday.

Mr. and Mrs. C. Umschied are home again after spending the last two months in Portland, Ore., visiting with their son-in-law and daughter, and other relatives.

RED CROSS

The April meeting of the Red Cross F.U.A. and F.W.U.A. was held at the home of Mr. and Mrs. Bert Methel Thursday evening, April 3 with a good attendance. Mr. Rhodes of Brant was guest speaker at the men's section. Mrs. Norman Love gave a bulletin on education which aroused a lively discussion among the ladies. Plans were discussed for the coming convention in June at Arrowwood. Next meeting is to be held at the home of Mr. and Mrs. Clare Dunham.

Mrs. Ivo Love entertained several ladies at a tea last week.

Mr. and Mrs. Elmer Plourd have returned from Creston, B.C. where they visited their daughter and son-in-law and family.

Ross Giles of U. of A. and Miss Muriel Ostrom of Edmonton spent the weekend at the Giles' home.

A. Giles and Sons have another entry of Hereford Bulls for the Calgary Sale which will be held next week. Good luck, boys.

Several of the men of the district have been helping at the renovation of the United Church in Vulcan.

Mr. and Mrs. Fred McKinnon of Water Valley visited at the R. McKinnon home early this week.

The many friends of Grandma Love are wishing her a speedy recovery.

Although Vulcan is famous for its wheat, four of the district farmers shipped out two carloads of fat cattle, 48 in all, to the Calgary yards this week, which would bring credit to any district. Because of road bans, H. Douglas, A. Oldfield, F. Wyatt and A. Giles and Sons were obliged to send cattle to the yards by rail. This is the first time for a number of years that cattle have been shipped from Vulcan by C.P.R. to the stock yards.

U.N. Assembly President Welcomes His Son

One of the youngest—and keenest—visitors to the United Nations General Assembly in Paris was six-year-old Adrian, shown above with his famous father, Dr. Luis Padilla Nervo of Mexico, the President of the Assembly. After a warm welcome in the President's office, Adrian sat through a plenary meeting and took notes of his father's speech. "I can write, too, like father," he said, after listening carefully to the simultaneous interpretation.

Brief Items of Local Interest

Wallace McIntyre of Burmis built house this week. The house will be relief C.P.R. agent here for the next month. In the absence of Charles Taylor, who is holidaying on the west coast.

Mr. E. G. Hansell is spending a few days at his home here, prior to leaving for Vancouver where he will deliver a number of political addresses.

St. John's Ambulance courses will continue to be held each Thursday during April. On April 17, there will be two films shown, "The Tale of Two Cities" and "The Chemistry of Fire," at the Vulcan Armouries.

Mrs. W. W. Almond is a Calgary visitor this week.

Mr. and Mrs. Cecil Watson and baby son of Strome, Alta., are visitors this week at the D. Hyslop home.

There will be no Home and School meeting during the month of April. The regular meeting will be held in May.

Friends of Guy Denbigh will regret to learn that he is a patient in the hospital, receiving treatment for an injury to his foot.

Friends of Miss Melba Stein will be sorry to learn she is suffering from pneumonia, complicated by measles, and is confined to the isolation ward of the local hospital.

Mr. and Mrs. A. C. Marsh and family of Sundre were recent visitors to Vulcan.

Mrs. Harold Fox was a recent Calgary visitor.

Weekend visitors to Lethbridge were Mr. and Mrs. C. Fleming.

Mr. and Mrs. Don Jantzie of Grande Prairie are at present guests at the home of the former's parents, Mr. and Mrs. D. O. Jantzie.

Mr. and Mrs. S. Scales and Mr. and Mrs. Boyd McKay spent the weekend in Calgary.

Mr. A. Ferngren, accompanied by his daughter, Mrs. C. Northcott, and Betty Ann were recent Calgary and Crossfield visitors, with Betty Ann remaining for the week with her aunt, Mrs. G. O'Neil, at Crossfield.

Recent guests at the home of Mrs. Frieda McRoberts were Mrs. R. Brandt of Calgary on Saturday and Mr. and Mrs. Gus Johnk of Milo on Monday. Mr. and Mrs. Johnk have just returned from a two-month holiday spent in California.

The congregation of St. Aldhelm's Anglican church were sorry to learn recently that their pastor, Rev. E. A. Justice has accepted a call to St. Gabriel's, Calgary, to which he will go about June 15. The Anglican churches at Crossfield and Balzac will also be under his charge. The many friends of Mr. Justice and his parents will wish them much happiness in their new home.

Friends of Mr. and Mrs. Tom Shaw will be sorry to know that their small son, Billy, received painful burns to his chest and legs, Monday, when he upset a pan of boiling water over himself. He is receiving treatment in the local hospital.

Mr. and Mrs. Leo Fritzler are receiving congratulations on the birth of a daughter, April 8th.

Mr. and Mrs. N. Scotney and family moved into their newly

funds that support this public education program are provided by gifts to the Cancer Crusade.

BY A NOSE

Johnny had seen his mother measure a yard by holding one end to her nose and the other at arm's length. One day he came running in with a piece of rope. "Here, mother," he said. "Smell this and see how long it is."
